Winery Küssler goes around the World.

» SUNHILL «

Our award winner. Presented in Austria's oldest wine-growing town Stillfried / Grub - with 3000 years of wine tradition, grown on the most prominent hills.

Fertilized by rich soils, ripened in the sunniest location, hydrated, almost daily, by the morning mists of the surrounding meadows. One line of wine after another - of this gift of God. A venerable church was built at the highest point of the vineyard - to express deepest gratitude and for eternal protection. All this is eternalised by the famous Viennese artist Max Gangl - on our wine's precious label.

*The creative one!*

The winery "Küssler" is located in the southern part of Austria's largest and oldest wine-growing region - the Weinviertel. The prevalent Pannonian climate with its warm winds, the numerous days of sunshine and the region's ideal soil mix (loess, clay, bedrock and black earth soils) as well as the hydrating morning mists of the surrounding floodplain forests of the March-Thaya-Auen, all provide a favourable environment for our vines which is unsurpassed worldwide.

These local conditions, along with the dedication and love for our products, result in fruity, full-bodied, dry and exceptionally elegant and harmonious wines. Our Grüner Veltliner, the Welschriesling, Riesling, Chardonnay, Yellow Muscat and Sauvignon Blanc as well as our red wines Zweigelt and Blauburger, our Rosé and various excellent Cuvées guarantee exceptional quality.

The winemaker Leopold Küssler's high degree of expertise, his creativity, knowledge and dedication do not only manifest in every wine's scent and reveal in every careful sip - they can also be felt in the presentation of Küssler's wines, the design of the winery with the large wine tavern, the spacious sun terrace, the 300-year-old cellar vault and moreover in the unique wine barrel suites.

Having received a great number of prizes, amongst them winner in the category Welschriesling at the AWC competition, Küssler's demanding and outstanding work has been rewarded many times.

In addition to the home brand "Winery Küssler Like a Kiss", the winery Küssler appears on scene internationally with its supplementary brands „Empress Sisi by Winery Küssler“, „Winery Küssler's Sunhill“ and the Cuvée Line „Life“.

The Winery Küssler is closely located to the imperial Schloss Hof - Empress Sisi's desirable summer residence - and amidst extensive, sun-filled and fruitful vineyards. This ideal location, our honourable tradition and the numerous national and international awards make our wines so excellent that even Empress Sisi would have loved them. So who else can press wines that even satisfy royal requirements - no one but the winery Küssler!

The award-winning vintner Leopold Küssler's lifelong goal is, not only, to press excellent wines to cherish, but to produce wines that make life worth living. According to Küssler's concept or approach „It must be possible to combine different high quality wines in a specific ratio, in order to obtain a certain feeling within the connoisseur - to simply make him merry, pleased, more powerful“.

For days, weeks, months, years, almost decades, the winegrower has combined a variety of wines; has experimented and changed conditions and varieties again and again - all this, in order to reach his life goal.

The time has come! We proudly present:

# CUVÉE LINE LIFE BY KÜSSLER

Please understand that both the choice of variety and specific ratio of the wines used are strictly confidential. Leopold Küssler's research has taken many years, so his unique blends remain his deepest secret! But it works!
